

CLAIMS

What is claimed to be new and desired to be protected by Letters Patent is set forth in the appended claims.

I claim:

1. A top for mounting onto the front of a musical instrument, comprising:
 - a) a top being disposed on the front of a musical instrument, said top having an exterior side and a rear side, wherein said rear side is oriented toward the front of the musical instrument;
 - b) a bonding layer being disposed on said rear side of said top for permanently attaching the top to the front of the musical instrument;
 - c) a lenticulated surface being disposed on said exterior side of said top for creating special visual effects; and,
 - d) a plurality of lenticular images created by said lenticulated surface to permit the appearance of the musical instrument to be enhanced.
2. The top of Claim 1, wherein said bonding layer comprises an adhesive material.

3. The top of Claim 2, wherein said bonding layer comprises glue.
4. The top of Claim 2, wherein said top is complementarily shaped as the front of the musical instrument.
5. The top of Claim 4, wherein said top has a plurality of apertures therein to permit the guitar hardware to pass through the apertures.
6. The top of Claim 5, wherein said musical instrument comprises an electric guitar.
7. The top of Claim 5, wherein said musical instrument comprises an electric bass guitar.
